

Kronos Web Access (HTML)
Required Changes to your Internet Explorer Settings

Note: If you are using add-on browser tools not supported by FAHC (I.e. Google), on any Windows version, you must use their protocol to allow popup windows for <https://timekeeper.fahc.org>.

If your Windows version is XP Service Pack 2 or later, please follow these additional steps.

1. Open one Internet Explorer browser window.
 2. Go to **Tools** and choose **Pop-up Blocker**, then **Pop-up Blocker Settings**
 - a. In the “Address of Web Site to allow:” field, type **<https://Timekeeper.fahc.org>** and click **Add**
 - b. Click **Close**
 3. Go to **Tools** and choose **Internet Options**
 - a. Click on the **Security** tab
 - b. Click on **Trusted Sites**
 - c. Click the **Sites** button
 - d. In the “Add this Web site to the zone:” field, type **<https://Timekeeper.fahc.org>** and click **Add**
 - e. Click **OK** twice
-
