

Plastic, Reconstructive and Cosmetic Surgery at Fletcher Allen offers an extensive array of services in cosmetic and reconstructive surgery. We provide expert care by board-certified plastic surgeons who are at the forefront of cosmetic and reconstructive surgery. We are also committed to personalized care, giving patients the confidence of expert care to meet their needs.

SERVICES

Cosmetic Surgery

Fletcher Allen provides the full range of plastic surgery services. Our plastic surgeons have advanced expertise in the latest procedures and techniques, offering:

- Breast augmentation
- Breast lift and reduction
- Abdominoplasty or “tummy tuck”
- Body contouring after major weight loss
- Liposuction
- Facelift
- Cosmetic eyelid and browlift surgery
- Nose reshaping
- Cosmetic ear surgery
- Botox, fillers and lasers
- Facial rejuvenation

Reconstructive Surgery

In addition to cosmetic surgery, we offer comprehensive reconstructive surgery services to correct abnormalities related to birth defects, injury, disease, infection or other surgeries. We are among the leading plastic surgeons in the state for pediatric procedures such as cleft lip and palate. Our team offers extensive services in reconstructive surgery including:

- General reconstruction after trauma or cancer
- Breast and facial reconstructive surgery
- Reconstructive plastic surgery of congenital deformities (repair of cleft lip and palate, prominent ears)
- Hand surgery
- Microvascular and reimplantation surgery
